RE: NOTICE OF CONSTRUCTION  
Connecting Link Program  
Phase 2; Contract # 09-APS-014

Elmsley St. North and Cornelia Streets

---

The Town of Smiths Falls in conjunction with McIntosh Perry Engineering Consultants & Karson, has commenced construction activities on Elmsley St. N. from Beckwith to Cornelia Street and on Cornelia Street from Union Street to Elmsley Street.

Please note there is a three day detour planned October 6 – 8, 2009, to complete construction within the Cornelia and Elmsley Intersection (worker safety is paramount). Detour routes shall be provided to permit safe passage throughout our Town.

There shall be no parking on Kensington as it will be utilized as a one way street for the above three days for truck and car traffic to be diverted from Cornelia to Beckwith).

Only Cars will be diverted around Moore St to Johnston St. to Elmsley N. to Mazie St. to William and Elmsley Intersection to access Perth and Kingston. Please help us by not parking on these streets during this time.

We apologize for any inconvenience to you (short-term inconvenience with a long term gain).

We shall keep you updated through radio (92.3 Jack FM), website, verbal and written communication.

Thank you in advance for your patience,

Vanessa Bernicky, A.Sc.T. rcca  
Engineering Department,  
Town of Smiths Falls
