1. CALL TO ORDER AND LAND ACKNOWLEDGEMENT

On April 14, 2026, we acknowledge that this sacred land on which Smiths Falls is now located has been a site of human activity for over 10,000 years and is rich in Indigenous history. This land is the ancestral and unceded territory of the Algonquin Anishinaabe Nation. We are grateful to the Algonquin ancestors who cared for the land and water in order that we might meet here today. We are also grateful to the Algonquin People for their contribution in the making of the Rideau Canal which runs thru Smiths Falls. We are mindful of broken covenants and the need to reconcile with all our relations. Together, may we care for this land and each other, drawing on the strength of our mutual history of nation building through peace and friendship being mindful of generations to come.

Subject: FORMAL CORRESPONDENCE FOR INCLUSION IN NEXT POLICE SERVICES BOARD AGENDA

Please confirm receipt. I respectfully request that this correspondence be formally logged and forwarded to all Board Members for consideration as an agenda item.

To the Smiths Falls Police Services Board,

On April 1, 2026, I met with Vice-Chair Pankow and Secretary Costello to discuss the Board's governance gaps. I appreciate their time and the open conversation. The meeting confirmed several points that inform the requests below.

The Board is operating under policies that are decades old, reference repealed legislation, and predate current interpretations and expectations under the Charter. These governance gaps create daily risks for both the public and the Service, and have already contributed to preventable harm in our community.

The Community Safety and Policing Act (2019) provided a five-year transition period for Boards to modernize their governance frameworks. That window passed without meaningful renewal. A stop-gap strategic plan approved in 2024 remains in place, and projected timelines for modernization have repeatedly shifted. As of March 2026, the anticipated completion date has moved again, while the community continues to experience the risks of operating without a modern, lawful governance framework. The Vice-Chair has confirmed that an external consultant has drafted over 100 new Board policies, yet the public has not been invited into that process.

There is also a discrepancy in the public record regarding access to existing policies and Standard Operating Procedures (SOPs). The Chief stated at the February meeting that community members must file an FOI request to obtain local policies and SOPs. When an FOI request was filed, the response denied access on the basis that officers "follow the Standard Operating Procedures, Directives and Policies outlined in accordance with O. Reg. 87/24," and therefore no local policies or procedures were provided. (*O. Reg. 87/24 is a provincial training regulation, not a source of local SOPs.*) This is inconsistent with the eight policies the Board has already disclosed, all of which direct the Chief to create operational procedures. It is also inconsistent with the legislation itself as the CSPA does not contain any SOPs but instead requires the Chief to develop them. These obligations are not new; under both the former Police Services Act and the current Community Safety and Policing Act, the Chief is responsible for establishing the operational practices and procedures necessary to implement Board policy. This contradiction raises important questions about how oversight has been exercised during the years in which no procedures have been available.

While the Board has disclosed eight policies in response to earlier concerns, these represent only a small portion of the governance framework. Since that time, further issues have emerged, and we are requesting access to the remaining policies that guide the Service. At minimum, the Board's procedural bylaw must be provided. As a governance document, it should be publicly accessible, and the

community cannot meaningfully participate in oversight without knowing the rules that govern the Board today.

Because of these concerns, we are requesting that the following items be placed on the agenda for discussion and consideration at the April meeting. The Vice-Chair indicated openness to two of the requests below: a standing agenda item for policy updates, and posting draft policies for public discussion. We ask that this openness be formalized into Board action. These requests reflect the urgency of the situation and the community's need to be included in rebuilding a system that directly affects our safety and rights:

1. **A standing "Policy & Governance Update"** on every Board agenda until the Board is in compliance with the CSPA, so the public can track the modernization process.
2. **Public posting of draft policies** before approval, with a civilian-led opportunity for feedback.
3. **A clear and meaningful public consultation process** for the ongoing modernization, including structured opportunities for community input.
4. **A permanent public consultation policy** to ensure ongoing transparency in governance decisions.
5. **An explicit prohibition on dragging restrained individuals by the limbs**, included in use-of-force and prisoner-handling policies.
6. **A copy of the Board's current procedural bylaw**, or confirmation of the Town bylaw adopted by reference and the version in effect.
7. **Hard timelines for completion** of the modernization process, including when draft policies will be available for public review.
8. **Access to the remaining existing policies**, beyond the eight already disclosed.
9. **A request that the Board direct the Chief to clarify the FOI discrepancy**, including why the FOI response stated that officers rely solely on OPC training and O. Reg. 87/24, why no local policies or procedures were disclosed, and how this aligns with both the Board's policies and the CSPA requirement that the Chief develop local procedures.

If the Board requires any clarification in advance of the meeting, I am happy to provide it. We respectfully request that this correspondence be placed on the agenda for discussion at the April meeting, rather than received for information only. The community has been directly impacted by the gaps in the current framework, and we are committed to participating constructively in the modernization process.

Sincerely,
Kelley Denham, on behalf of Smiths Falls Together!
